Thanks for the update.
Let's discuss how to move forward.
Jeff

Subject: PN 20-14 Benedum Airport Authority

Jeff,

I wanted to give you an update on PN 20-14 for Benedum Airport Authority.

Project Overview:

The project is for the construction of the Terminal and Aerotech Park Phase I at the North Central West Virginia Airport (Airport) near Bridgeport in Harrison County, West Virginia. The applicant proposes to discharge permanent fill material into 7,710 linear feet (lf) of 16 unnamed tributaries to Ann Run and Peddler Run and 3.363 acres (ac) of 15 wetlands. The applicant intends to mitigate for these unavoidable aquatic impacts through a combination of mitigation bank credits and a permittee-responsible mitigation (PRM). The mitigation bank would be used to offset 1.929 wetland debits, and the proposed PRM would offset in 4,156.433 stream debits and 3.041 wetland debits.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I wanted to provide you with a heads up about the project, and Christine and I will work to finalize our comments and send them to you for your review.

Thanks,

Mark Zolandz
